Shuai Wang wangshuaicool94@gmail.com

- Education and Professional Experience

➢ **Career Timeline**

Bachelor
Jilin University

Automation

PhD in Computer Science
Institute of Automation, Chinese Academy of Sciences

Knowledge Graph Reasoning and Fact Verification

Senior Algorithm Engineer
Baidu

Industrial KG Systems and LLM developing

Postdoctoral Researcher
Chalmers University of Technology & Volvo Group

LLM for Software Engineering and Knowledge-based Reasoning

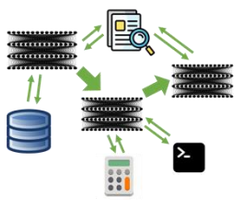

- Research Overview

Building AI systems for complex and real-world tasks.

Complex & Knowledge Intensive Tasks

Require

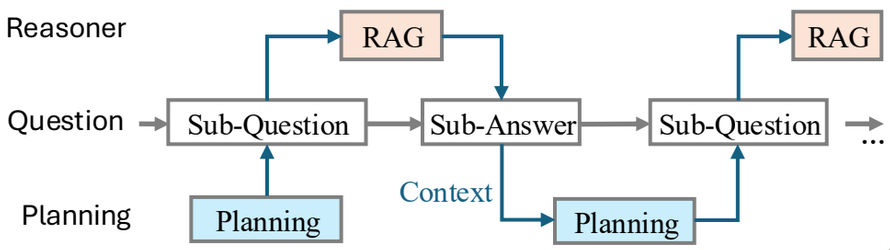

cannot be solved by one-shot prompting

Reasoning & Interactive Planning
(ACL 25 / IJCNN 26)

Task: Multi-hop Knowledge Graph Question Answering
- Multi-turn retrieval
- Iterative planning

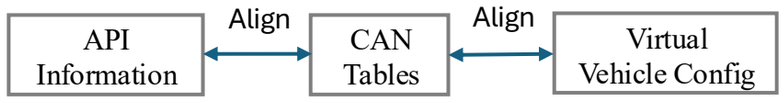

Question-guided Interaction Loop

Workflow Decomposition
(ICSE 25 / FSE 26)

Task: Complex Industrial Truck API Testing
- Complex workflow
- Misaligned information

Cross-domain Information Alignment

Knowledge Grounding
(AAMAS 26)

Task: Industrial Truck Domain Code Generation
- Knowledge base construction
- Knowledge-guided reasoning

Dynamic Knowledge Selection
